

# Installing Maven Lite on IUT du Havre Machines

---

Retour

- Voir la [documentation Française](#)
- See the [PDF documentation](#)

- 
- Download the [Compressed File of the French Version](#) containing the application files.
  - Decompress the compressed file.
  - Open a terminal in the directory containing the application files.
  - Make the `install.sh` file executable if it's not already.

```
chmod +x install.sh
```

- Run the `install.sh` file.

```
./install.sh
```

- You can delete the remaining unused files.
